

1. Shut off power before installation.
2. Fix the mounting strap to wall.
3. Feed the main wire through the rod and backplate.
4. Screw the rods into the long bar. Then, insert rods into the backplate and fix with washers and nuts.
5. Connect wires with wire connectors to the corresponding wires in wall.
6. Attach the backplate to the mounting strap and fix with cap nuts.
7. Remove the socket ring and put cover and light shade onto lampholder, fixing with metal washer and socket ring.
8. Screw in light bulbs (not included with light fixture) and turn on the power.
