

# Desk Installation

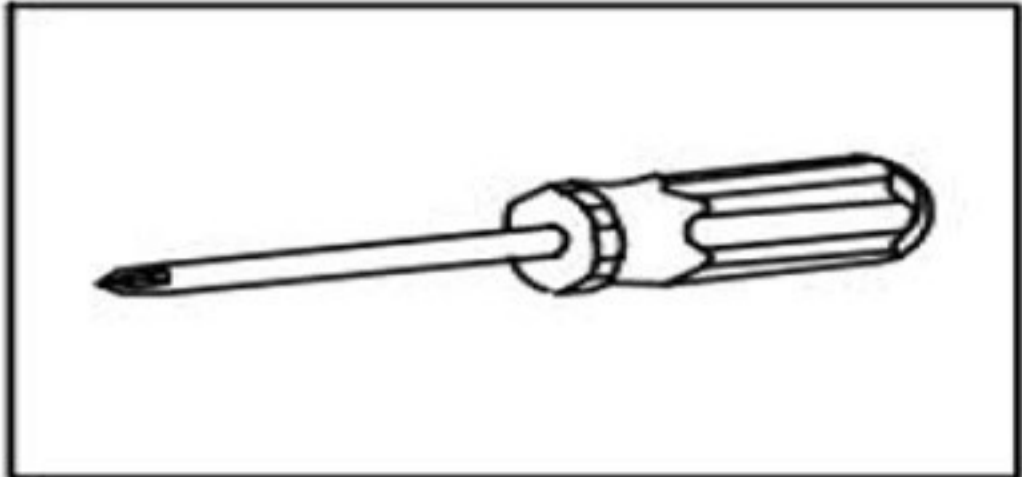

## INSTALLATION MANUAL Tools You Will Need:

Adjustable wrench

Hexagon wrench

Philips Screwdriver

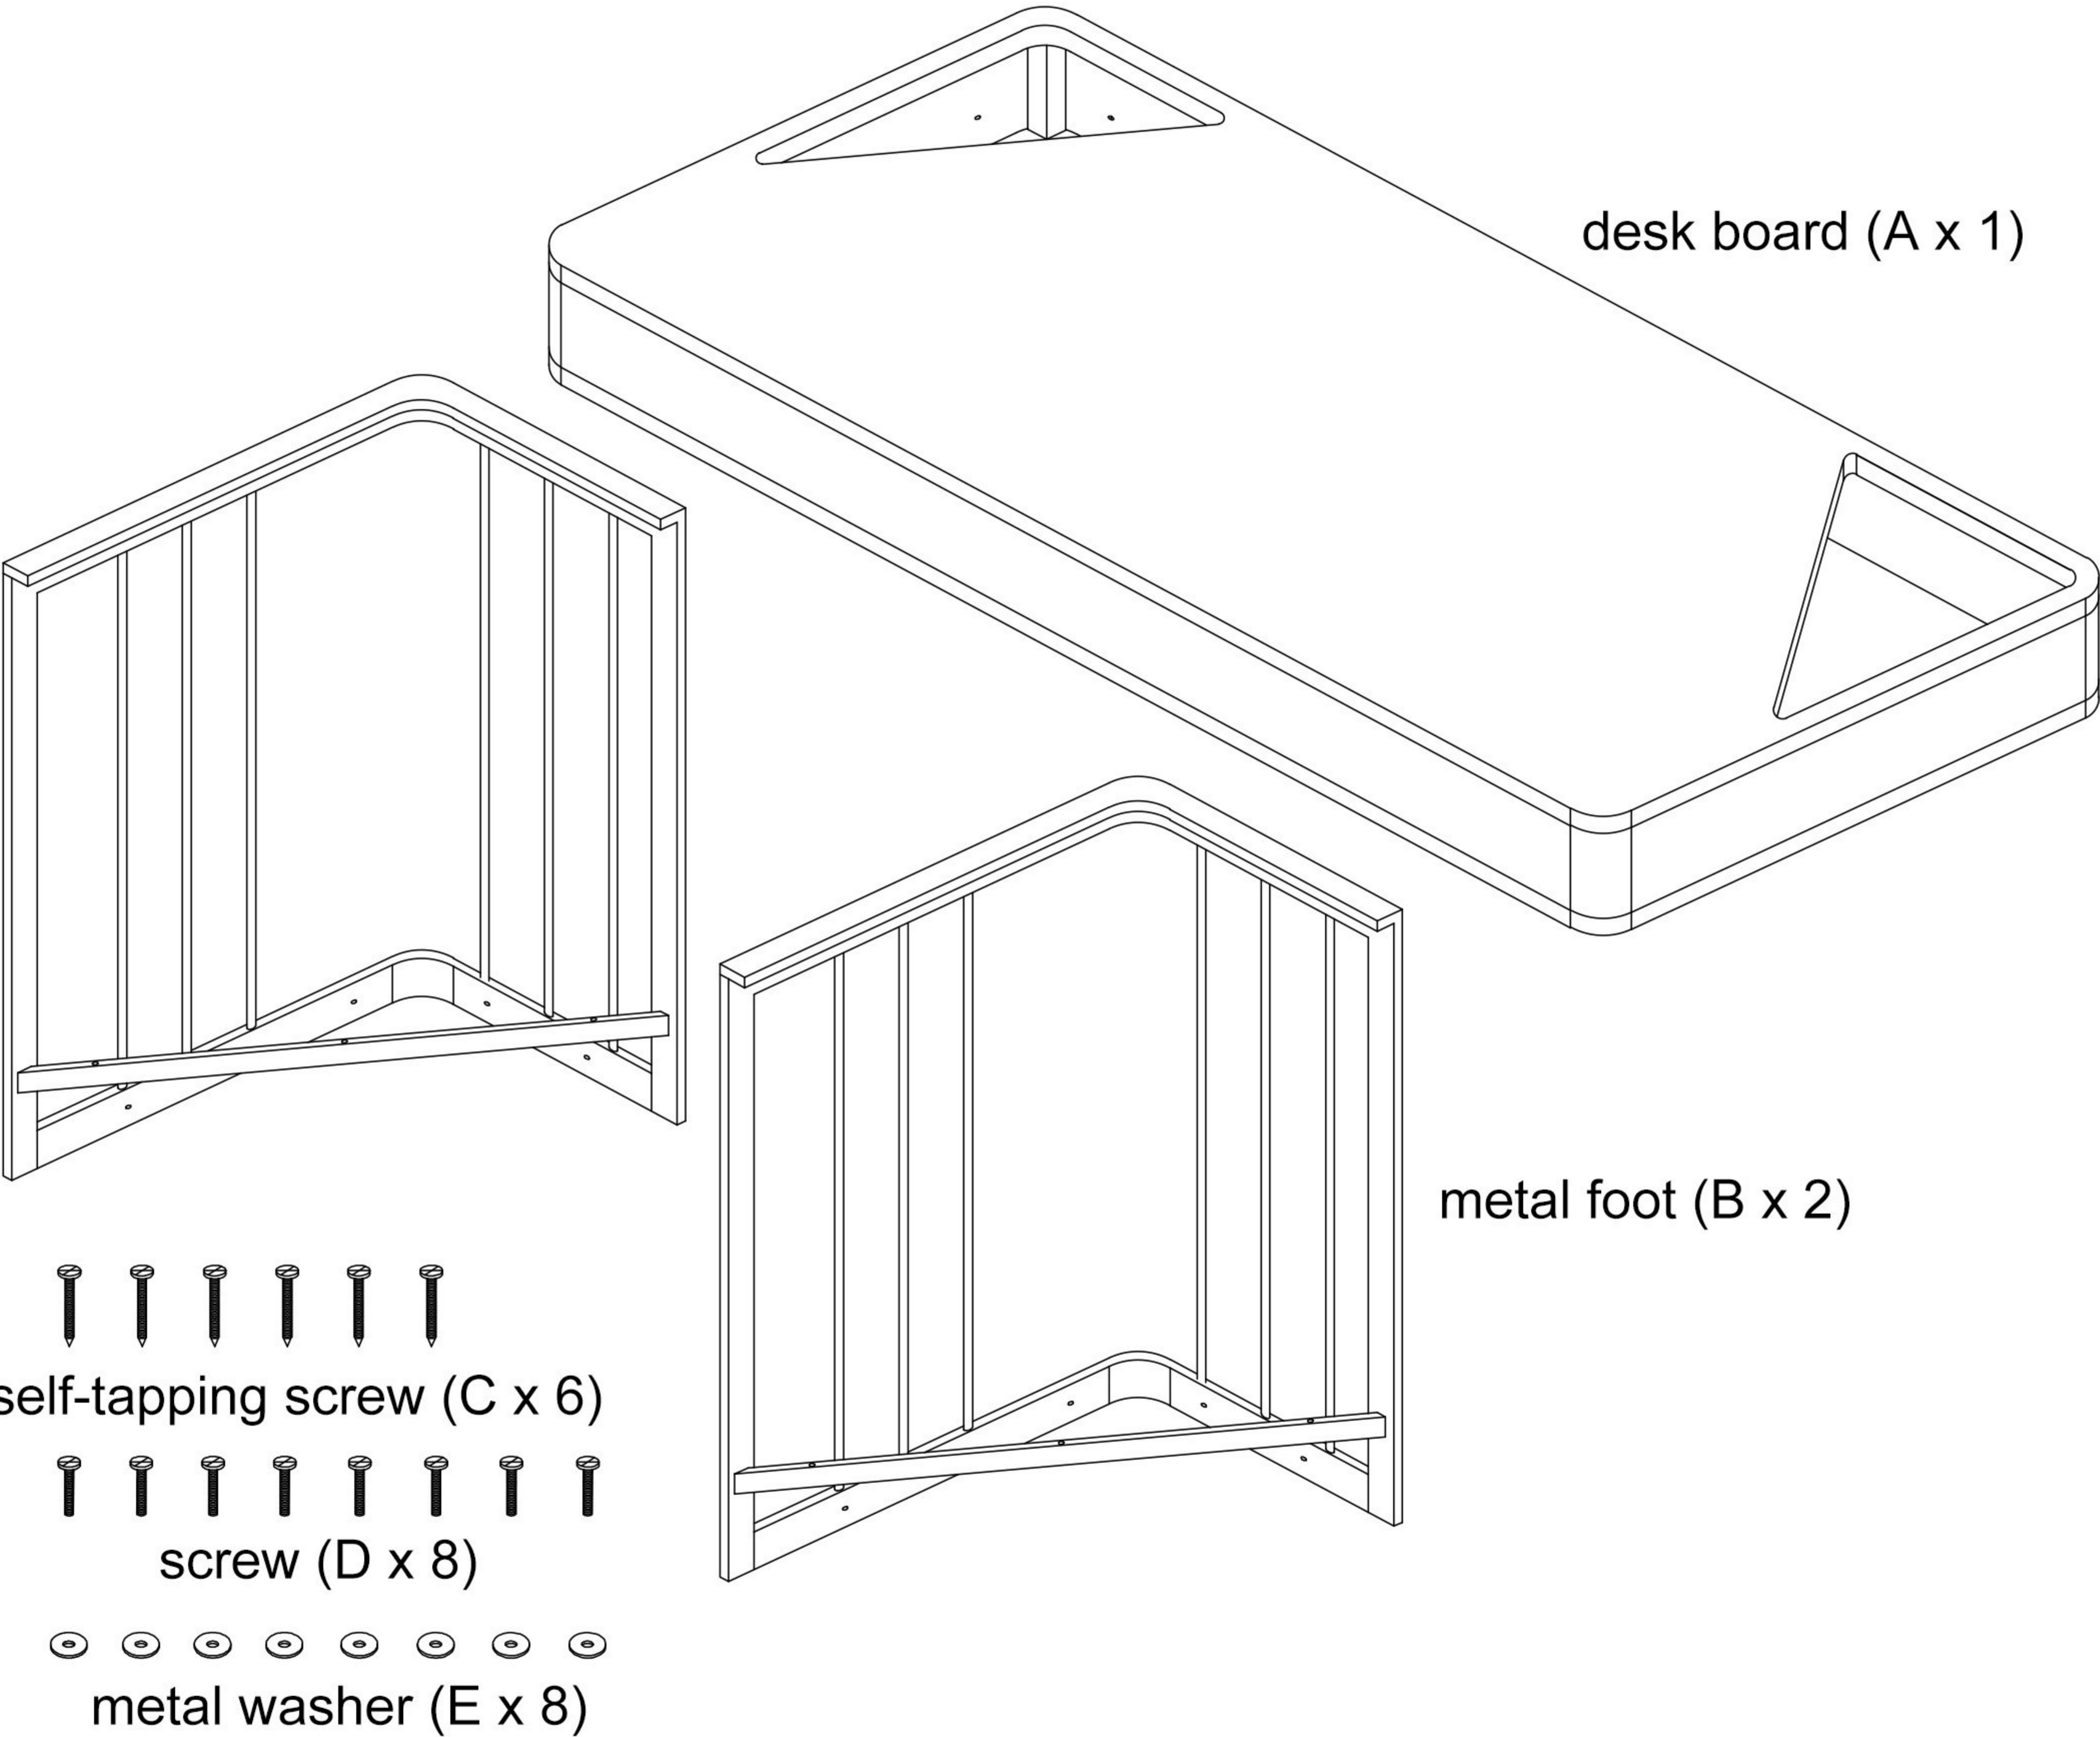

### Before the Installation

- 1. Do not throw away packing materials until assembly is complete for small parts may come loose inside the carton during shipment. If parts are missing, please contact us.
- 2. Assemble this item on a soft surface, such as carpet to protect the finish.
- 3. Proper assembly of this item requires 2 people.
- 4. Periodically check to ensure that all connections are tight.
- 7. It is recommended that installation of the product be done by a qualified licensed plumber.

### Care and Cleaning

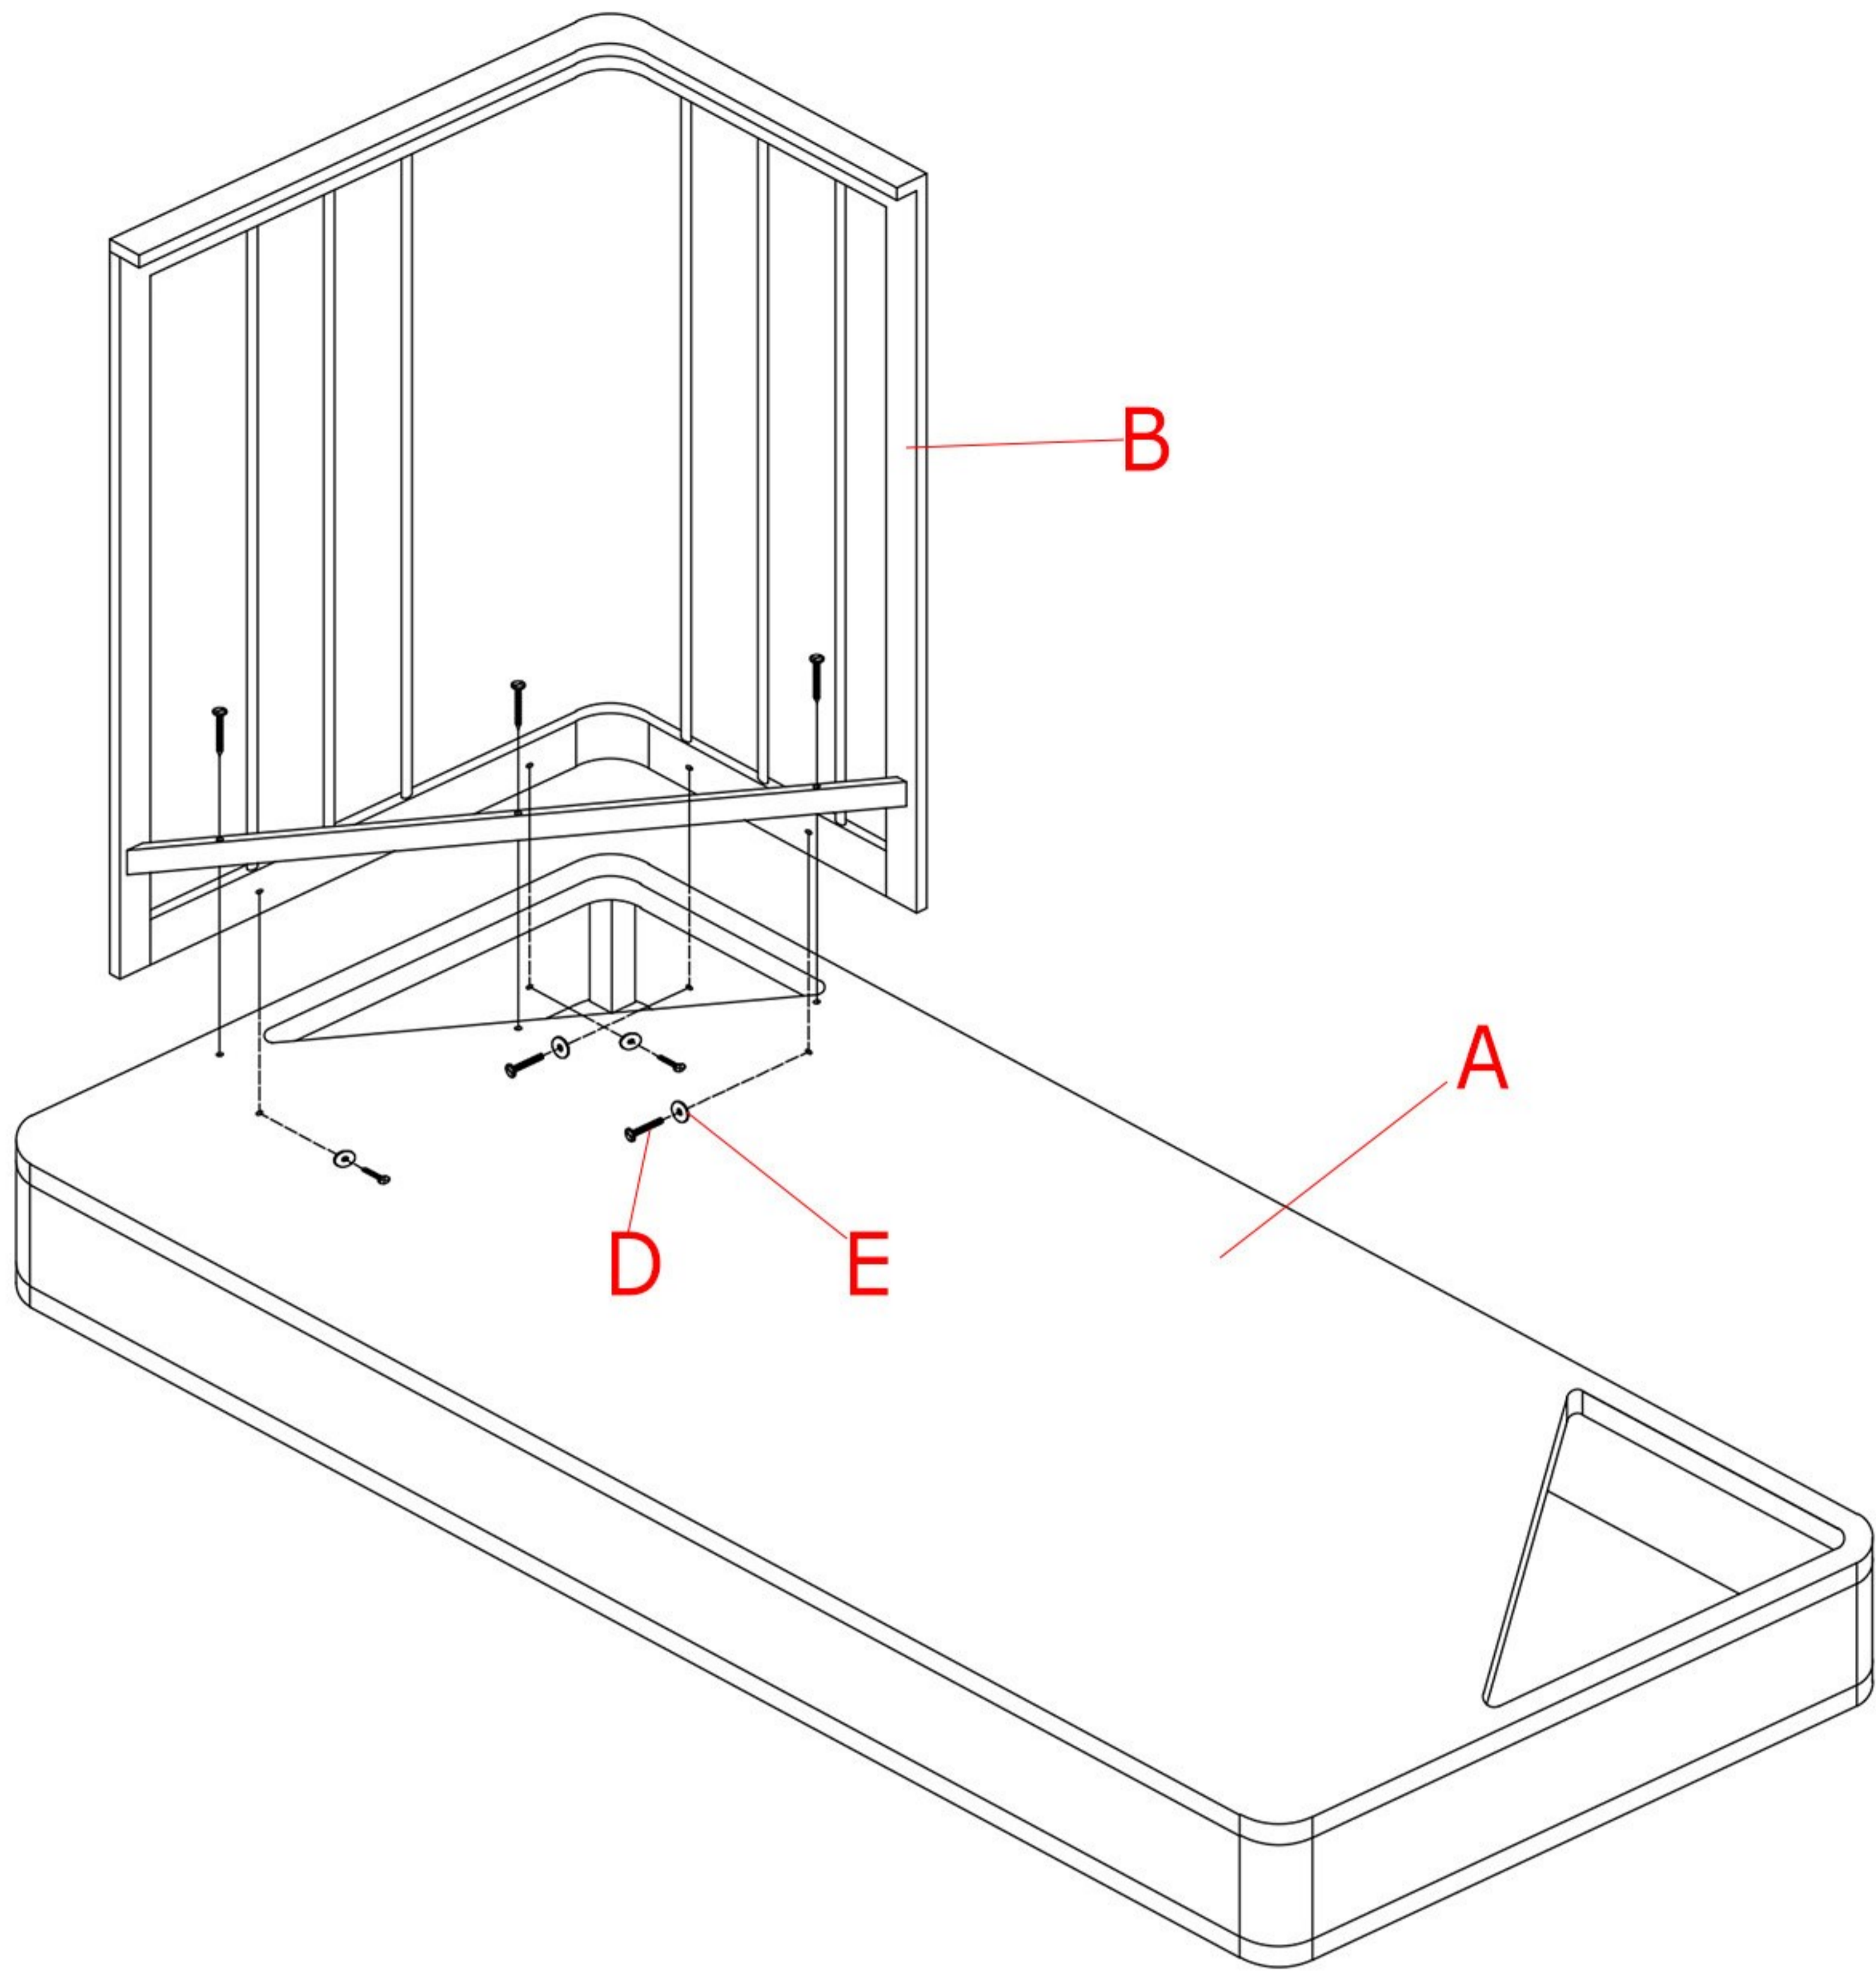

- 1. To protect the finish, avoid use chemicals and household cleaners.
- 2. All hot serving dishes should be placed on a pad.
- 3. Any liquid spilled onto the top should be cleaned up immediately with a damp cloth.

### Parts List

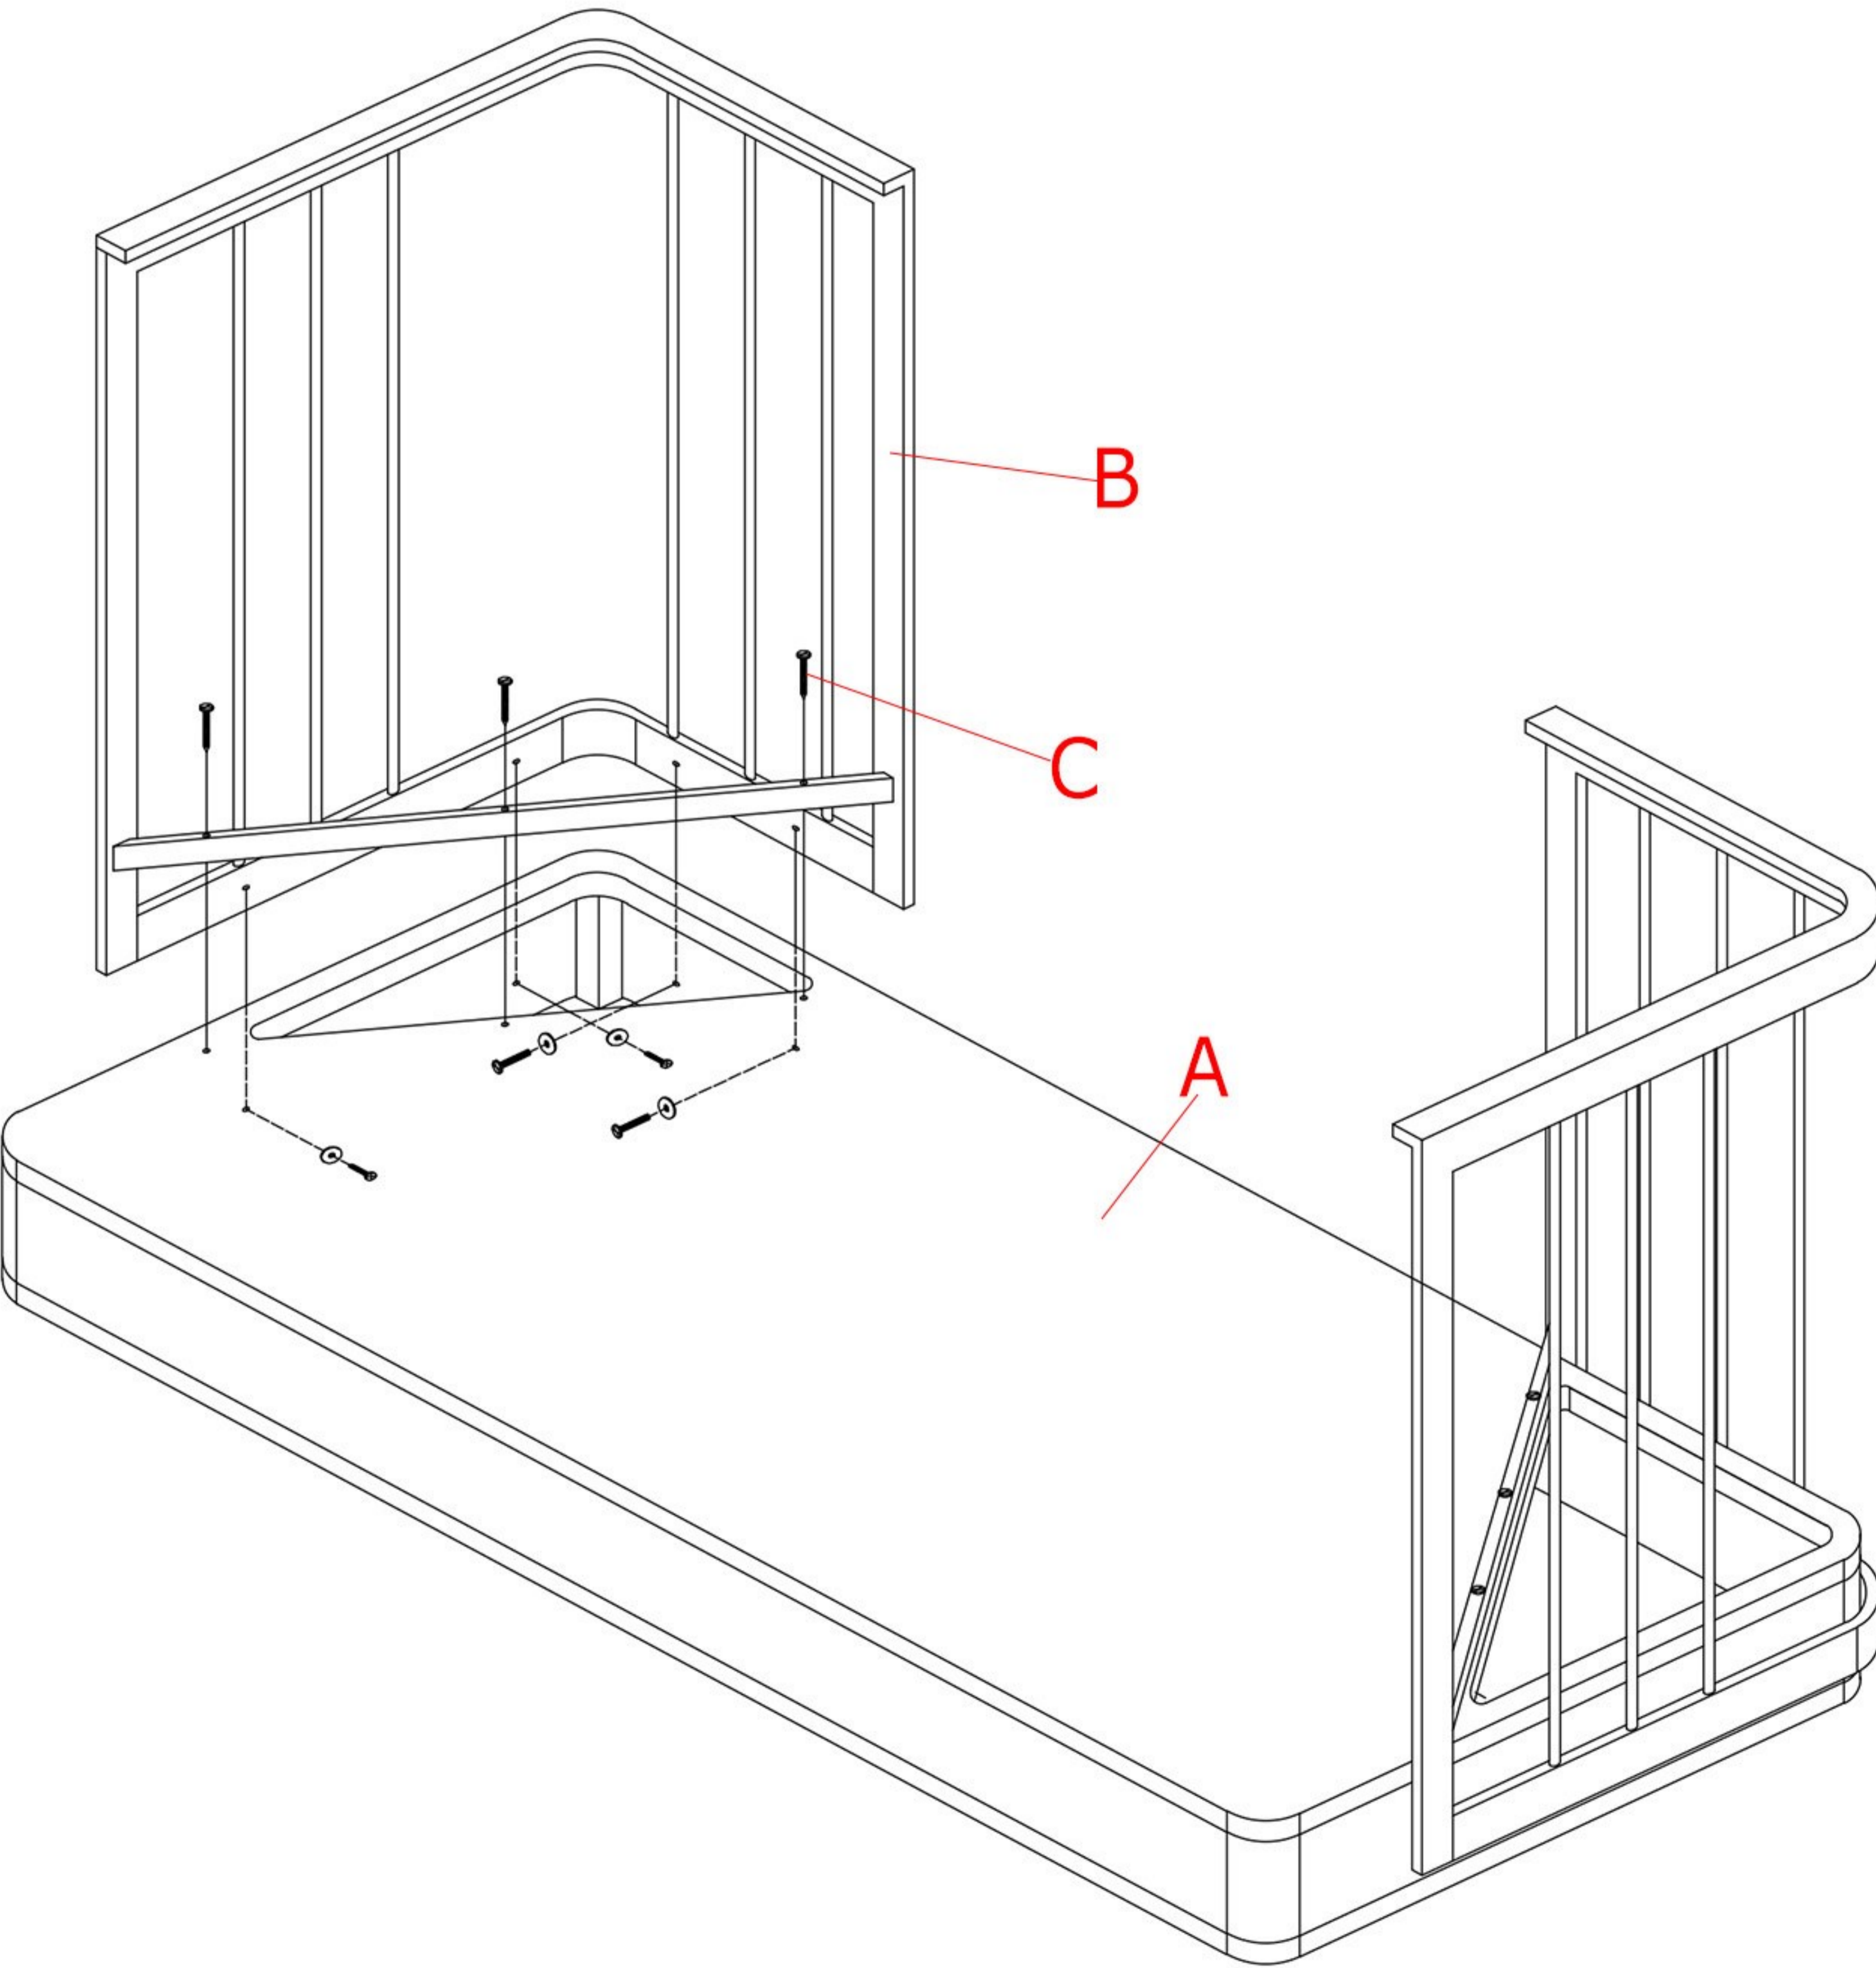

**Note:** Do not fully tighten all bolts until all parts are in place. Failure to follow these instructions may cause the bolt to misalign during assembly.

## Installation Guide

- 1. Put the desk (A) board down to the clean floor with its holes facing upward. Align the metal feet (B) to the board hole by hole. Feed each screw (D) with a metal washer (E) and insert them into the holes inside the board. Tigten the screws with a percussion driller (not included) at both sides of the desk as shown.

- 2. Insert the self-tapping screws (C) through the other holes on the metal feet (B) into the board (A) and fix the feet with the board by screwing the self-tapping screws with a percussion driller (not included). Stand the desk up.
